REHANAT AL OFOQ INDUSTRIAL FACTORY

# Who We Are

Rehanat Al Ofoq Industrial Factory is a company established in 2025 and located in the Al-Rafai Industrial Area on Al-Kharj Road, near more than four industrial cities in Riyadh (Al-Kharj Industrial Area 1 and 2, Al-Kharj Industrial Area, and Al-Hair Industrial Area). This proximity facilitates access to suppliers, cardboard factories, and electronics and electrical appliance manufacturers.

We utilize the latest technology, enabling us to produce large quantities of plastic packaging and polypropylene strapping. Our strapping is compatible with internationally recognized strapping machine brands such as Mosca, Cyklop, Signode, and Straback.

We invest in our administrative operations, equipping them with high-capacity capabilities supported by state-of-the-art ERP systems. We have also ensured the recruitment of experts with over twenty years of experience in the industrial sector.

# Polypropylene Strapping

Polypropylene straps are the most widely used and least expensive of all tape materials.

It is lightweight and easy to use. Its characteristics include high elongation and recovery of elongation, along with low tensile strength.

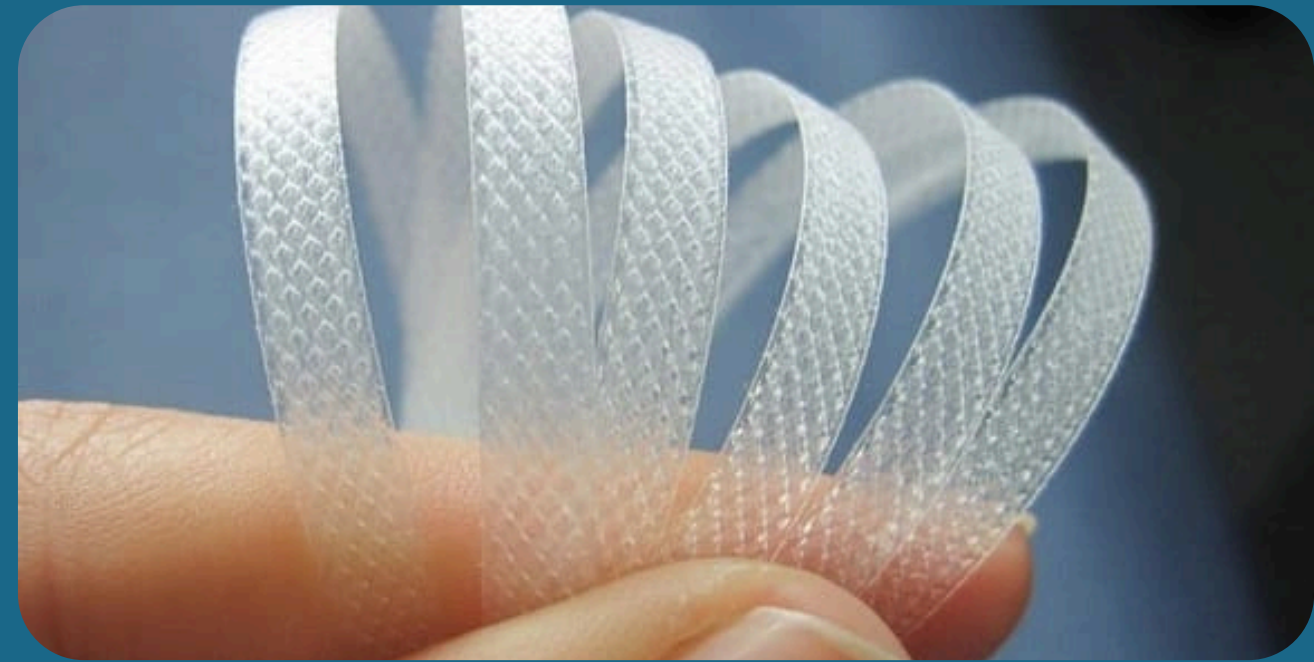

Polypropylene is available in machine-made form and is used in all heat-sealing machines, whether manual or semi-automatic.

Polypropylene is also an excellent choice for palletizing, bundling, and carton sealing.

# Vision

To be a world-leading plastics company, recognized for producing essential resources responsibly and sustainably, while creating value for stakeholders and promoting economic development for future generations.

## Features

Ultra-lightweight tape for high-speed packaging machines

Higher breaking strength.

Low elongation and excellent holding power.

Easy to maintain and trouble-free tape

Resistant to moisture and common chemicals.

## Applications

Suitable for assembling and bundling goods using manual, semi-automatic, or fully automated packaging machines.

# Services Capabilities

At Rehanat Al Ofoq Industrial Factory, we offer a comprehensive range of on-demand manufacturing services and capabilities that enable us to efficiently and responsibly deliver high-quality packaging products. Our capabilities cover all global specifications, ensuring a streamlined, sustainable, cost-effective, and customer-satisfied approach.

## Information & Features

Fully automatic polypropylene strapping machine for straps from 5 to 19 mm, with an outer package diameter of 500 mm.

Automatic package conveyor system.

Adhesive film laminating machine for automatic package sealing.

Our polypropylene strapping is compatible with internationally recognized strapping machine brands such as Mosca, Cyklop, Signode, and Straback.

# Future Growth and Vision

At Rehanat Al Ofoq Industrial Factory, we aspire to be a global leader in responsible and sustainable strapping. We are committed to driving innovation, fostering growth, and expanding our operations to meet increasing global demand.

## Expansion into New Markets:

Our future growth strategy includes expanding our operations into untapped regions with high resource potential.

## Our Mission:

To reduce plastic use in global packaging.

## Sustainability Leadership:

As we grow, sustainability will remain at the core of our vision. We aim to set new industry benchmarks in environmental stewardship

## Uses:

- Goods packaging
- Logistics packaging
- Carton packaging
- Electrical appliance packaging
- Book packaging
- Wire packaging
- Food packaging
